22nd Annual
World Congress On
Learning Disabilities

April 24 and 25, 2014
Southampton Solent University,
Southampton, England

Presented by
Learning Disabilities Worldwide, Inc.
Dear Colleagues,

Learning Disabilities Worldwide (LDW®), located in Weston, Massachusetts, U.S.A., is an educational and scientific nonprofit organization concerned with learning disabilities (LD) and related problems. LDW® is pleased to announce its 22nd World Congress on Learning Disabilities, which will be held at Southampton Solent University in Southampton, UK. The Conference Committee invites proposals for sessions related to its theme “Ensuring Quality Education: Research, Practice, Advocacy”. Areas of interest include all aspects of language-based and nonverbal LD, ADHD, dyslexia, reading difficulties, dyscalculia, dysgraphia, processing disorders, and developmental disabilities. We are interested in a broad spectrum of research and practical presentations in these areas. The purpose of the conference is to present and exhibit the most up-to-date information to a diverse audience, which includes researchers and practitioners (teachers, educators, psychologists, social workers, physicians, etc.). You are invited to be among those presenters who come from a variety of different countries inside and outside of Europe.

Teresa Allissa Citro, Kate Esser, Matthias Grünke & Ann Marie T. Leonard-Zabel

Keynote Speaker
Friedrich Linderkamp, Ph.D.
Dr. Linderkamp is a full professor of rehabilitation sciences at the School of Education at the University of Wuppertal.

“A training of learning skills for adolescents with ADHD (LeJA) – Empirically based conceptualization and first findings of efficacy”

Abstract Submission
The Conference Committee invites you to submit abstracts for presentations as papers (15 minutes) or posters. There is no limit to the number of presentations submitted by a single author. Abstracts of no more than 250 words must be sent by e-mail to:

matthias.gruenke@uni-koeln.de

They must include:
- Title of presentation
- Name(s) and institutional affiliation for all authors, with the presenter's name underlined
- Complete address for the first author
- Type of address that is preferred (paper or poster)

“If we know how to teach …, this knowledge places a great responsibility on educators and policymakers to use what we know … The greatest hope we have to reverse the longstanding problem of school failure …, is the move toward a science of learning and toward policies based on science” (Robert Slavin).
