WE WELCOME YOU TO THE MEETING O

The Institute of Anatomical Sciences

Autumn Scientific Meeting – 31st August 1st September

Anatomy Centre, The John Dawson
Sciences Complex,

University of Sunderland

Chester Road, SR1 3SD

AUTUMN MEETING

Dear Member

The 2023 Autumn Scientific Meeting is being held at the Anatomy Centre, The John Dawson Sciences Complex, University of Sunderland, Sunderland, SR1 3SD on the 31st August and 1st September.

Inside is the programme and some information about the University of Sunderland and its' history.

Brian, Lynsey, Chris, Debs and their colleagues are planning an excellent meeting and your support will be greatly welcomed at this prestigious event.

On the Thursday evening there will be a Dinner at the Stadium of Light.

I am looking forward to seeing you all at the Autumn 2-day conference to be held in Sunderland

Best wishes

Stephen Franey
IAS Meetings Coordinator

Sunderland is easily accessible by road, rail and air see here for more details <https://www.sunderland.ac.uk/help/contact-us/getting-here/>

The Institute of Anatomical Sciences

Founded in 1984, the Institute of Anatomical Sciences is a growing international group of Anatomy and Anatomically-related professionals dedicated to sharing knowledge, techniques and practices to ensure informed intellectual and technical expertise in the Anatomical Sciences.

We have an educational programme including anatomical techniques workshops, skeletal preparations, embalming, dissection/prosection and several other techniques/skills unique to our profession. A formal educational qualification, the IAS Diploma provides and ensures a gold standard of expertise expected by Higher Educational Institutions and is accompanied by a Certificate in Anatomical Technology and Science.

In addition to holding two Scientific Meetings a year in the UK and Ireland to update and educate our general membership, there is a journal and a newsletter, which serves to keep the members informed.

The benefits of membership of the IAS include:

- Networking with colleagues from other Institutions in both Medical & Veterinary Schools. Gaining insight into new developments in teaching methods and specimen preparations. Sharing ideas and information for courses (programmes run/cost comparisons)
- Staff development: Training program for staff through the IAS Diploma and Foundation Certificate, supported by IAS workshops. Opportunity to give presentations at scientific meetings developing communication skills.
- Opportunity to enhance the reputation of your Institution through presentations, the winning of awards (dissection/museum competition and open awards), and hosting IAS Scientific meetings.
- Links with other professional bodies, The Anatomical Society of Great Britain and Ireland, The British Association of Clinical Anatomists and the Human Tissue Authority through the 'Professional Guidelines and Practices (Anatomy) committee.
