SCIENCE

RESILIENCE

**HOW CAN ART AND CREATIVITY HELP US
IMAGINE REGENERATIVE, RESILIENT COASTAL
COMMUNITIES IN A CHANGING CLIMATE?**

Join us in Kirkcaldy for a free weekend of inclusive art and science activities, including immersive walks, facilitated discussions and hands-on workshops. Bringing together researchers, artists, scientists, communities and even microscopic ecosystems, the programme explores our waste legacies and reimagines waste as a force for positive change.

INFO & BOOKING

ALL EVENTS ARE FREE AND FAMILY-FRIENDLY. BOOKING IS REQUIRED.

Waste Futures Labs is part of the Resilience of Anthropocene Coasts and Communities (RACC) research project. RACC is jointly funded by UK Research and Innovation (UKRI) and the Department for Environment, Food and Rural Affairs (DEFRA).
