- David Wooff
  Senior Lecturer in Design and Technology,
  B.Sc (Hons) Design and Technology (with QTS) Course Leader
- Christopher Hughes
  Independent Consultant

MTL

Edge Hill University

The Masters in Teaching and Learning (MTL) grew out of the recommendations of the McKinsey report (2007); *How the World's Best Performing School Systems Come Out on Top*.

"Our aim is that every teacher over time should have the new masters in teaching and learning. It will raise the status of teachers and ensure that they get the recognition that they deserve."

Ed Balls

Speaking at the Association of School and College Leaders' (ASCL) conference, Brighton (Source Education Guardian Friday 7 March 2008)

MTL

Edge Hill University

Edge Hill is one of eight universities working with local authorities and schools to deliver the MTL in the North West of England where all Newly Qualified Teachers (NQT) in maintained schools (who took up teaching posts in September 2009) are eligible to sign up for the first programme.

Our interest in MTL originates from our involvement with the programme and from the perspective of our work in Initial Teacher Training (ITT).

MTL

Edge Hill University

In this format the MTL is a three-year, classroom based programme, the first phase of which is being offered to NQT's.

MTL is also available to NQTs in "*national challenge*" schools across the country (those with sub 30% five A* to C grades including Maths and English at GCSE level) - prior to the general election it was the then government's aim to roll out MTL nationally in 2012.

About the roundtable

Edge Hill University

- The session will be 30 minutes in duration.
- We aim to provide an opportunity for all participants to share their perspectives on MTL and explain what they hope to gain from attendance at the session.
- Our role is to steer the discussion to help ensure everyone has the opportunity to contribute to the session.
- We will note key points and salient issues in the discussion and share these with delegates via the TEAN website.

What next?

Edge Hill University

- Share contact details.
- Publish key points from this session on the TEAN website .
- Create a ‘notice board’ area for participants of this workshop (and other interested parties) to feed forward their questions, queries and experiences of MTL.

Thank you

Edge Hill University
